LIKE TWO BIG ARMIES

New York Bulls and Bears Have Gone Into Winter Quarters.

Weekly Bank Statement Continues to Grow More Favorable-Indianapolis Grain Shows Declines.

At New York, Saturday, money on call

was nominally 3 per cent.

Prime mercantile paper, 71/2 @10 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.86 12 @4.86% for demand, and \$4.84@4.84% for sixtyday bills. Commercial bills. \$4.83@4.8314. Posted rates, \$4.8512 @4.8712.

Silver certificates, 73% @75c. Bar silver at London, 33%d. The New York weekly bank statement

shows the following changes: Reserve, increase.....\$7,008,250

Circulation, increase...... 886,700 The banks now hold \$17,609,951 in excess of the requirements of the 25 per cent. rule. The bank statement was favorable, the beavy increase of over six and a half millions in deposits being the notable feature. While the small decrease in loans was, perhaps, less than was expected, the addition of nearly nine millions in cash, coupled with the large deposits increase, shows that the money market is improving in condition with entirely satisfactory prompt-

The situation of affairs on the New York Stock Exchange vesterday was like that of two great armies which, after a vigorous campaign, in which neither side gained material advantage, have gone into winter quarters, leaving the picket lines to exchange occasional shots merely to keep them from freezing. The leading operators on the bull side hold aloof from the market and the big bears do not show themselves at the front. The room traders do what work there is done. Quite a good deal of business was done yesterday in the two hours during which the Exchange was open. The first prices were made on a declining market and then was a slight rally. but the improvement did not continue long and until the close the tone was heavy, the last figures being, in the great majority of instances, the lowest of the day, or within 'so thereof. The chief declines were Chicago Gas, 143; Chicago, Burlington & Quincy, %; Rock Island and Consolidated Gas, 34, and Cleveland, Cincinnati, Chicago & St. Louis, 48 per cent. On reports that the proposed reorganization of the Erie railway bonded indebtedness would be prejudicial to the interests of the preferred stock, that issue sold down 6 per cent, and the common fell oil 1 per cent. Cordage was also weak on unfavorable reorganization talk, the preferred declining 4 per cent. and the common a per cent.

The railroad bond market was dull, except for Erie second consols, which, for the same reason that the stock was weak, declined 24 per cent. Louisville, Evansville & St. Louis consols fives fell off 2. Among the issues which show an acvance are Chicago, St. Louis & Pittsburg firsts, 4; Rock Island coupen firsts, 24. A story from Philadelphia that a prominent New York banking house was arranging to ship between one and two millions in gold next week was sifted, and so far as could be learned was a canard, pure and simple, Government bonds were steady. State bonds, nothing doing. Closing quotations

LOCAL GRAIN AND PRODUCE.

The Trade of the Week Fairly Satisfactory, with Few Changes in Values.

In most departments trade in the week closing Saturday was fairly satisfactory when conditions are considered, and prices as a rule have carried a firm, steady tone. Coffees are ic higher than a week ago, eggs advance lc, provisions continue in strong position and poultry is firm and steady on light receipts. Really choice fruits and vegetables bring good prices. Irish potatoes still have an advancing tendency. while sweet potatoes are lower. Apples are in good demand, but there is a good deal of inferior fruit on the market. Onions are higher. The hide market is more active and firm at the advance of the early part of the

The local grain market was fairly active the past week. Wheat was steady Saturday at Friday's prices, while corn lost to and oats were weaker. Track blds ruled as follows:

AND WHEAT WENT OFF

Increase in Visible Expected to Reach 14,000,000 Bushels.

Corn Lost Its Early Strength and with Oats Declined-Provisions Given a Boost by Packers.

CHICAGO, Sept. 23 .- Fear of a large increase of visible and smaller exports next week caused the bulls to dump wheat today. The price broke over 1c and closed %c under last night's figures. Corn also was easier, closing with 4 @ sc loss. Provisions were firm and advanced 714 @20c.

Wheat at the opening was firmer and prices 4 @ se higher, then weakened and prices declined 14 0140, held steady and the closing was easy, about 'so from the the bottom for the day. The firmness early the market, but the offerings were quite liberal and soon as the buying commenced a general decline set in. The favorable New York bank statement did not have any effect upon prices. There was a rumor of a failure of some sort at Liverpool, and this made an excuse to uphold the market. It is estimated that the visible supply will show an increase of about 14,000,000 bu. The scattering buying at the start was due somewhat to general oversight temporarily of the fact that Bradstreet's weekly report of exports was made up to Thursday evening, and did not represent the falling off of the last two

days of the week. The receipts of corn were twenty-six cars under the estimate, which may have had some little to do with an appearance of strength, which developed when trading commenced. The opening bullishness of wheat was, however, the more powerful factor, and when wheat began to turn down corn followed suit. Estimated heavy receipts Monday of 860 cars assisted the decline. Prices had a range of %c. The close was steady, be from inside figures. t is denied that Schwartz's short line h

Oats followed other grain, and in the end closed to lower for May than on the day before. The near futures were compara-

It was a packers' market in provisions. After selling considerable January stuff for a day or two, they marked prices up for the Saturday session. The hogs were posted at 100,000 for the week. This was nearly twenty thousand short of the estimate. The estimate for next week was only 110,000. There was no particular stir in the trade. No one cares to sell stuff short, and

The offering of vessel room ready to load was light, and the demand only fair. Rates | fair demand; fair to choice timothy, \$14@ were steady at 13sc for wheat and 40 for corn to Buffalo. TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Balti-

more, Cincinnati and Other Points. MINNEAPOLIS, Sept. 23.—The wheat market opened strong and higher to-day. but quickly lost its atrength through heavy offerings. December wheat opened at 65% o and closed at 64% c. The cash wheat market was a difficult one to sell on. Buyers were slow and hung back, expecting to buy a little later at lower prices. The supply was larger than it had been running. Elevator companies were in the market at about the advance for December for No. 1 Northern, so that this grade was well cleaned up. Millers were slow buyers owing to the poor demand for flour. No. 2 Northern was carried over No. 1 Northern, and sold mostly at 61%c. A few carloads of fancy were sold at 65c when futures were the highest, and considerable sold at 64%c. was due to some buying orders coming on | The flour market was dull and weak. in sympathy with the decline in wheat. The sales for the week did not equal the output. The mills grinding to-day were expected to turn out about 32,000 barrels, which would make the local output for the week about 200,000 barrels. Sales were said to rule about as follows; First patents, \$2.60@3.95; fancy and export pakers', \$1.85@2; low grades, \$1.30@1.45. Bran was steady, with the demand fair at \$9.50@10 in bulk; shorts, \$10.75@11.25.

Dry Goods. NEW YORK, Sept. 23. - There has been a very fair volume of trade in dry goods, considering the brevity of the time given to business. Many of the out-of-town traders left early, and the local demand has been confined chiefly to evening up assortments. The market closed with conditions generally favorable. The demand for cotton goods seems to be fair, with vaues having an upward tendency, following the recent advances on print cloth yarns. Finer qualities of bleached, white and colored cottons are in preference. The lower qualities show some irregularity. Orders are coming in pretty well for prints and printed fabrics, with fall fancies selling promptly and some specialties for spring attractions were given more jattention. Print cloths rule steady but quiet. Ginghams and woven goods held their own as to price with business moderate. Dress goods. woolens and worsteds must be of favorable tickets to sell well, the general market for this class of goods being quiet. Foreign goods are quiet and steady. The jobbing trade is well suited at steady prices.

POWERFUL BEACON LIGHT. Forty - Six - Million - Canale Lamp to Be Erected on the French Coast. Philadelphia Record.

The engineer-in-chief of the French lighthouse service proposes to outdo all previous achievements in brilliant lighthouses by constructing a beacon light with a lantern of 46,000,000-candle power. It has only been | miscellany are chosen with a view to a few months since this gentleman completed the most powerful lighthouse, which, up to that time, had been constructed. It | the tastes of the readers. The reading is at the Cape of La Heve, less than three miles from Havre, and marks the northern entrance of the estuary of the Seine. Its day Journal is equal in quantity and is illuminating power is equal to 23,000,000

of 140 miles in clear weather. The new lighthouse, which will be located some ten miles from Quimper, at a projecting headland bearing the name of Penmark, will not send its light ray much further than that of La Heve. The maximum distance in clear weather will be about 150 miles, but the intensity of the pencil of light being doubled, the amount of light at the same distance is likewise doubled. This enormous intensity of light is obtained by an arrangement of the lenses of the lamp. In the ordinary lamp the lenses, consisting of a number of rectangu- | the news of the week in condensed lar panels, are placed in steps in such a manner that the source of light occupies the principal focus of each of them. The rays of light then emanate from this part of the apparatus in a horizontal pencil. By reducing the number of papels, the quantity of light received by each is conse-

quently correspondingly increased. At La Heve there are four panels, the total light emitted by the lamp being triple the amount received in an apparatus with twelve panels. It is proposed in the new lighthouse to employ but two panels. each of them occupying a half square. Each lens will, therefore, receive half of the total light emitted by the lamp, and conse- cation. quently will emit a pencil of rays of a power double that furnished at La Heve. Like the lighthouse at La Heve, the new lighthouse will be lighted by electricity. The lamp will be fed by an alternating ourrent of 100 amperes at its maximum.

Less and Less Hoarding.

Pittsburg Chronicle. Mrs. Snaggs (reading)-A man in South Duxbury, Mass., has coughed up a ten-cent piece he swallowed some time ago. Mr. Snaggs-Yes, I've noticed other indications that the hoarding of money is coming to an end.

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs given are especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing in lustries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having a possible bearing on Indiana interests.

But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and their special fitness and adaptability to matter in any given number of the Suncandles, and its light is visible at a distance | not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispens-

able in every well-regulated family. The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers shape and a variety of miscellany, agricultural and household literature that render it one of the best invest. ments that any family can make. Try it and see.
